Interest shall begin to accrue sixty (60) days from receipt of this letter at the current rate of 6.18 percent per annum for the period of October 1, 2000 through September 30, 2001. Interest will be compounded annually. On October 1, of each subsequent fiscal year, any unpaid balance will begin accruing interest at the new rate to be determined by the Secretary of the Treasury. Payments shall apply first to any interest due and the remaining amount shall apply to the principal.

Since 1995, EPA has strived to make administrative changes to the Superfund program to make cleanup faster, fairer and more efficient. Under the Superfund Administrative Reform on improving the management of the Potentially Responsible Party (PRP) oversight, EPA has reaffirmed its commitment to conduct appropriate and cost-effective oversight while ensuring protective cleanups and to send oversight bills to PRPs in a timely manner. We believe that maintaining an open dialogue with PRPs about oversight expectations and PRP performance can improve the efficiency of response actions and minimize the cost oversight. To that end, we would like to offer to discuss with you our plans for oversight for ongoing and upcoming work at the West Lake Landfill OU2 site and to provide you with the opportunity to suggest ways to effectively streamline the work and its oversight. Please contact Dan Wall at (913) 551-7710 within the next two weeks if you are interested in having a conversation or meeting with us on these issues.

Please be advised that not all costs incurred by the Government during the billing period stated above may have been paid/posted. Therefore, any costs which have not been posted will be included in the future billings (interest will not accrue on these amounts until sixty days after they are billed).

If you have any questions, please call me at (913) 551-7526.

Sincerely,

David Plet
Accountant
